

Form template hygiene and infection prevention concept Cologne, NRW

We recommend that you prepare a hygiene and infection prevention concept prior to an event, a trade fair or a congress in order to ensure maximum safety for your participants.

In the following, we offer you a form template for the minimum requirements.

Details of responsible person (event planner):

Details and size of the venue:

Information on walking paths:

Details of the ventilation systems and measures for regular ventilation:

Measures for maintaining the distance of 1.5 metres between persons (or structurally effective measures like plexiglass panels or similar):

Measures to limit access to immunized or tested participants only:

Measures to inform visitors and customers on the necessary infection prevention measures (hand hygiene, distancing rules, coughing and nasal etiquette):

Measures to inform participants on entry bans for persons with symptoms of an acute respiratory disease:

Measures for the prevention of droplet infections and transmission by contact (smear infections):

Measures relating to the catering corresponding to the restrictions in place:
